

## **Helen Alexander, MD**

Helen Alexander is a clinical research fellow at King's College London and Guy's and St Thomas' NHS Foundation Trust in London, UK. She is pursuing her PhD during her dermatology specialist training, examining the role of the skin microbiome in atopic dermatitis, under the supervision of IEC Director Carsten Flohr, MD PhD MSc. Her project investigates the role of *Staphylococcus aureus* in atopic dermatitis and how *S. aureus* may interact with the cutaneous immune system to drive inflammation in the disease.
