

### **Shamir Geller, MD**

Shamir Geller, MD, is an associate attending physician, dermatology service, in the Department of Medicine at Memorial Sloan Kettering Cancer Center (MSKCC) and associate professor of clinical dermatology in the Department of Dermatology, at Weill Cornell Medicine in New York, NY

Dr. Geller is a dermatologist interested mainly in cutaneous lymphoma. His research projects have been published in leading dermatology, hematology, and oncology journals and he has been invited to present his studies in numerous regional, national and international conferences. He dedicates a large portion of his time and effort to teaching and mentoring students, residents, fellows, and visiting physicians, and he is involved in patient education initiatives, too.

During Dr. Geller's cutaneous oncology fellowship at MSKCC (2016-2019), he became a cutaneous lymphoma enthusiast, working at the multidisciplinary cutaneous lymphoma clinic. He mastered the art of integrating clinical findings, histopathologic features, clinical laboratory data, and molecular characteristics to reach the diagnosis and decide on the most suitable treatment. After his fellowship, he was appointed as an attending physician in the cutaneous lymphoma clinic at Tel Aviv Sourasky Medical Center in Israel where he served as the head of the outpatient clinics. In early 2023, Dr. Geller returned to New York as an associate attending clinician and researcher at MSKCC cutaneous lymphoma clinic.
