

Johann Gudjonsson, MD PhD

Johann Gudjonsson is the Arthur C. Curtis Professor of Skin Molecular Immunology at the University of Michigan (U-M) in Ann Arbor, MI, USA. He sees general dermatology patients at the University of Michigan Taubman Center.

His primary research focus is basic immunological and genetic research on psoriasis and other inflammatory diseases of the skin, with projects directed at improving the diagnosis and treatment of psoriasis.

Dr. Gudjonsson is the Frances and Kenneth Eisenberg Emerging Scholar of the Taubman Medical Research Institute. He received the Young Investigator Award from the American Academy of Dermatology in 2007 and his work has earned several research awards, including from the American Skin Association, the Dermatology Foundation, Doris Duke Foundation, and the National Institutes of Health (NIH). He is a director of an NIH-sponsored Skin Biology Research Center at Michigan and a member of the American Society for Clinical Investigation (ASCI). He serves on the Board of Scientific Counselors to NIAMS.

Dr. Gudjonsson graduated from the University of Iceland Medical School in Reykjavik, Iceland. He came to the University of Michigan in 2003 as part of an innovative research residency training program, and he completed his internship and dermatology residency training there. In 2008, Dr. Gudjonsson joined the faculty of the University of Michigan Department of Dermatology.
