

Jonathan Silverberg, MD PhD MPH is an associate professor of dermatology, and the director of clinical research and contact dermatitis at The George Washington University School of Medicine and Health Sciences in Washington, DC. His area of clinical subspecialty is inflammatory skin disease, particularly atopic and contact dermatitis. He has extensive experience in the advanced management of atopic dermatitis, hand eczema, chronic itch, psoriasis, hidradenitis, and many other chronic inflammatory skin disorders. He also is a national expert in allergy patch testing, phototesting, and photopatch testing.

Dr. Silverberg's publications include more than 1000 peer-reviewed articles, abstracts, and book chapters. He also is the author of *Clinical Management of Atopic Dermatitis* (2018). He has been a local, national, and international principal investigator for numerous clinical trials for novel treatments in atopic dermatitis and other inflammatory disorders. He is the chair of the annual Revolutionizing Atopic Dermatitis global multidisciplinary conference and an associate editor for the *Journal of the American Academy of Dermatology*, *British Journal of Dermatology*, and *Current Dermatology Reports*.

Dr. Silverberg completed his undergraduate degree, medical school training, doctorate in neuroimmunology, Master of Public Health degree in biostatistics and epidemiology, and internship in internal medicine at State University of New York Downstate Medical Center. He completed his residency training in dermatology at St. Luke's-Roosevelt Hospital Center and Beth Israel Medical Centers in New York, NY, and served as chief resident during his final year.
